HARBOUR LOFTS: OUTSTANDING LUXURY FLATS PALMA

This new project offers 15 luxury flats with a large common area with lots of terraces, a stylish swimming pool and a wellness area with fitness, sauna and indoor pool. Furthermore, the complex offers a large underground garage distributed over 3 levels with ample parking spaces for each unit. Due to the large window fronts all flats offer a lot of light. Each flat has its own spacious terrace. The flats have an excellent sea or harbour view.

The luxury flats that will be created here will have 1 to 4 bedrooms and will be built in accordance with the best construction and equipment qualities.

The gallery pictures 013 – 028 are photos of the show flat and serve exclusively to illustrate the qualities!

The residence sets a new standard in the luxury property market in the capital of Mallorca due to its special design and selected materials. The asymmetrical shape of the building is characterized by a high-quality glass facade and a special stone cladding. The structure allows each flat absolute privacy and its owner spectacular views through floor-to-ceiling windows.

The residence is located right next to the famous and luxurious marina Club de Mar. Every year this harbour welcomes some of the largest super yachts
